

CIKETTECH Website Development Specification v1.0

Project Overview

Develop a modern, responsive, multilingual corporate website for **CIKETTECH**, an Ethiopian technology company that designs and manufactures smart electronic products.

The website should emphasize:

- Product showcase
- Professional company profile
- Technology capabilities
- Customer inquiries
- AI-powered customer assistant
- Future scalability

Objectives

The website should:

- Present Cikettech professionally.
- Showcase products.
- Generate customer inquiries.
- Support future expansion.
- Be fast, secure, and mobile responsive.

Website Structure
